

Field Scope International is currently looking to invite you to take part in a market research discussion on the topic of **Intermittent Catheters**.

Methodology: Web assisted telephone interview

Date: Monday 8th May and Tuesday 9th May

Time: Different time slots available

Duration: 30 min

As a token of our appreciation you will receive an incentive of **£40 incentive (BAC or Amazon Voucher)** for your time and opinions.

Please note that market research is not intended to be promotional in any way. The information provided will be used for internal purposes only. All the data you provide us, including your identity, will remain confidential unless you specifically waive your right to anonymity. During participation in the research, you have the right to refuse to answer any questions or withdraw altogether. Any information you provide us with will be treated as confidential and you will remain anonymous unless you give your consent otherwise. You have the right to refuse to answer a question if you wish or withdraw from the research at any time.

The interview will be audio recorded for analysis purposes. Any other use of the recording will be subject to your written consent

If you are interested in taking part, please contact Jasmin (Field Scope International Project Coordinator) on 01707246170 or send an email to jasmin.m@fieldscopeint.com with your answers to the below screening questions:

Initial Screening Questions:

Full Name:

Contact Number:

Age:

1. Are you currently using an intermittent catheter to help with your management of any medical conditions you currently have? (by "intermittent", we mean a catheter that is inserted several times a day, for just long enough to drain your bladder, and then removed)
2. How long have you been using an intermittent catheter?
3. Which intermittent catheter brands do you currently use?
4. Do you usually insert your intermittent catheter yourself?
5. Which of the following *best* describes the reason why you need to use an intermittent catheter?
 - a) Urinary incontinence
 - b) Benign Prostatic Hyperplasia
 - c) Diabetes
 - d) Multiple Sclerosis
 - e) Spina Bifida
 - f) Spinal cord injury
 - g) Other (please specify):

We look forward to hearing from you.

Kind Regards,

Jasminka Milosevic
